

2<sup>nd</sup> German Health Research Meeting of

## **BMBF Research Networks on Behavioral Disorders Related to Violence, Neglect, Maltreatment and Abuse in Childhood and Adolescence**

Dear Colleagues, Ladies and Gentlemen,

We are pleased to welcome you to Heidelberg for the second meeting of the BMBF research groups "Behavioral disorders related to violence, neglect, maltreatment and abuse in childhood and adolescence".

We have attracted well-known international researchers to give lectures on the consequences of childhood trauma, ranging from the early parent-child relationship to neuroscientific findings and appropriate interventions. A focus of this meeting will be the diagnosis of traumatic experiences in children, adolescents and adults. Every consortium has the opportunity to provide a lecture on its scientific work.

This scientific meeting will be performed as a two-day online-conference which replaces the face-to-face meeting we had to cancel in May 2020 due to the Corona pandemic.

We are looking forward to our meeting and the continuation of our exchange.

*Sabine Herpertz   Lars White   Nina Heinrichs*  
Coordinators of the cross-sectional project "Diagnostics" and the UBICA team
